

MARICOPA COUNTY

Figure 6.1

Percentage of people age 65+ who are satisfied with the neighborhood as a place to live*

Unweighted N=619

Weighted N=351422

Note: Percentages may not add up to 100% due to rounding and/or missing information.

*People were asked how satisfied they are with their neighborhood as a place to live.

**The category "Not very satisfied" includes those who said they were somewhat satisfied, somewhat dissatisfied, or very dissatisfied with their neighborhood.

ADVANTAGE
Initiative
Improving Communication for an Aging Society

In Maricopa County, eight of ten (81%) people age 65+ are very satisfied with their neighborhood as a place to live. Nearly one of five (18%) are *not very* satisfied, and two percent are neither satisfied nor dissatisfied or do not know.

Note: Indicator 6 corresponds to Questions 30a-c in the AdvantAge Initiative survey questionnaire.

MARICOPA COUNTY

Figure 6.2

Overall, eight of ten (81%) people age 65+ are very satisfied with their neighborhood as a place to live. Nearly one of five (18%) are *not very* satisfied, and two percent are neither satisfied nor dissatisfied or do not know. Figure 6.2 shows differences by demographic characteristics. People with incomes below 200% of poverty are more likely than those with higher incomes to be *not very* satisfied with the neighborhood (25% vs.14%). While the difference within the race category appears large, note that the percentage of people other than white non-Hispanic is small in this community. Therefore, caution should be exercised when making inferences by race.

MARICOPA COUNTY

Figure 6.3

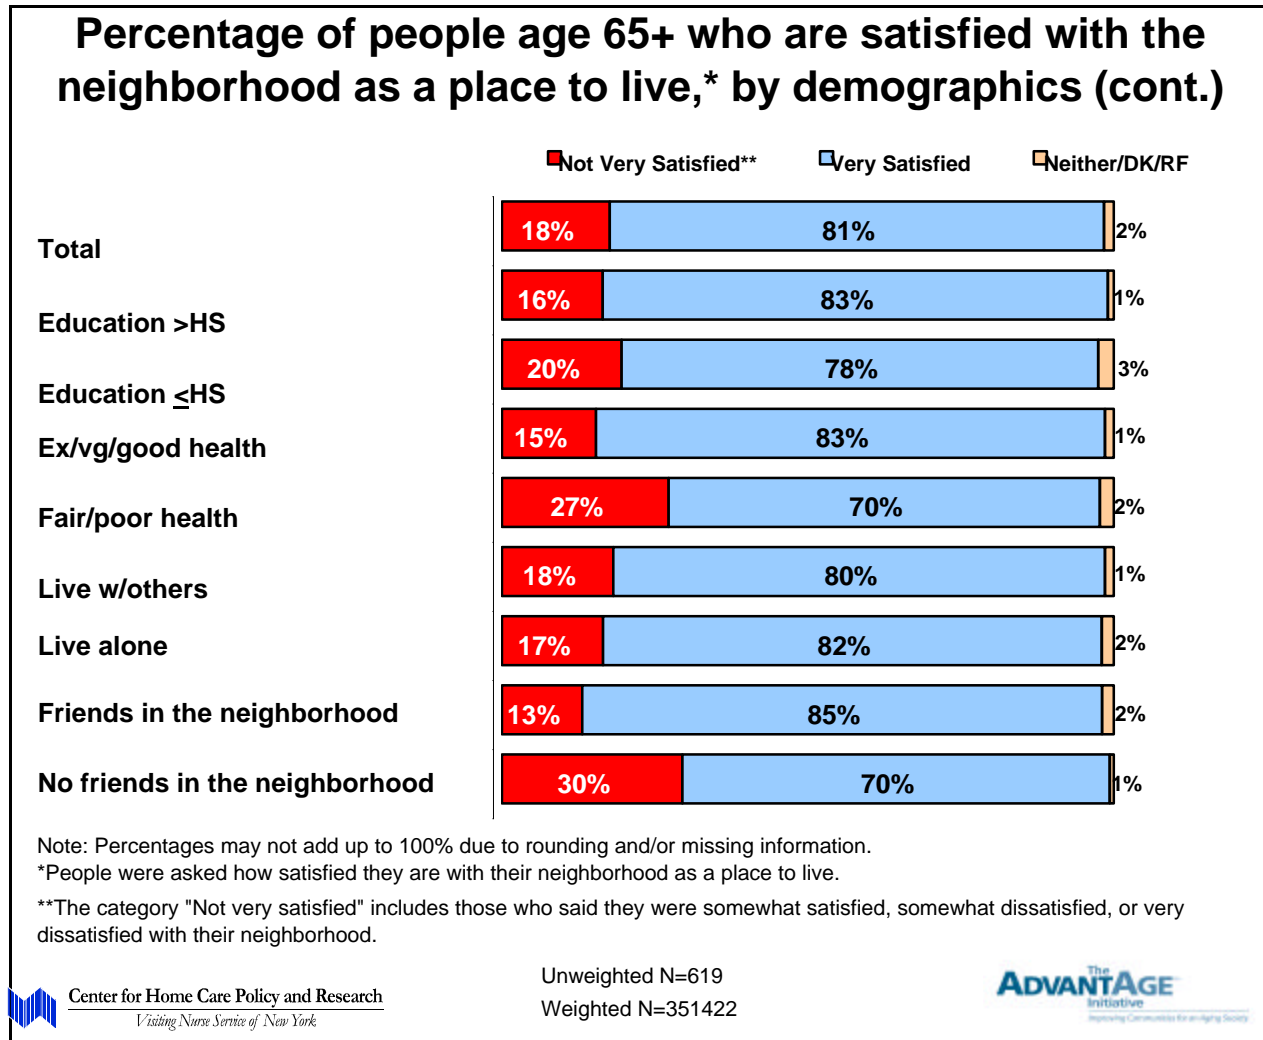

Figure 6.3 shows additional differences by demographic characteristics. People age 65+ in fair or poor health and those without friends in the neighborhood are more likely than their counterparts to be *not very* satisfied with the neighborhood (27% vs. 15%; 30% vs. 13%, respectively).
