Figure 29.2

Overall, nearly three of four (73%) people age 65+ attended movies, sports events, clubs, or group events in the past week. Figure 29.2 shows differences by demographic characteristics. People with incomes at or above 200% of poverty and those age 65-74 are more likely than their counterparts to have attended movies, sports events, club or group events in the past week (77% vs. 65%; 75% vs. 70%, respectively).

# MARICOPA COUNTY

Figure 29.3

Figure 29.3 shows additional differences by demographic characteristics. The following groups of people are more likely than their counterparts to have attended movies, sports events, clubs, or other group events in the past week: people in excellent, very good or good health (75%); those with friends in the neighborhood (76%); people with more than a high school education (77%); and those who live with others (74%).

Note: HS=high school; Ex=excellent; vg=very good.
